Local Laboratory Locations

Please take a copy of your lab order sheet with you to the lab. A physical copy of the order needs to be presented. If labs are recommended to be “fasting,” your child should not eat for 8-10 hours before the test but be sure to drink lots of water.

We recommend you check the laboratory website or call to find out their hours and see if an appointment is needed. You should also verify coverage of the lab with your insurance if you are not sure. These labs are just the nearest to our office. You can check the websites for other locations.
